OUR VALUES

Experience
Quantum's foundations lie in kitchen manufacturing knowledge and experience. In 1975, the first cabinet was built, and from there, Quantum was born. These bespoke kitchens have been cultivated by Quantum's highly respected CEO who grew up around the business, and the ever-expanding team.

Every Quantum kitchen is made to order, to ensure you receive durable, purpose-built cabinets. Each cabinet is crafted using a combination of state-of-the-art machinery and classic workmanship, resulting in both precision-built kitchens and exceptional quality. Quantum cabinets are all hand-assembled and undergo rigorous quality checks before leaving the premises.

Reliability
Each Quantum kitchen comes with a full 25-year guarantee on doors, drawers, cabinets and hinges. With coverage such as this, you're left with peace of mind that your kitchen is not only built to last, it is guaranteed to last.

Responsibility
Conscious of the environmental impact manufacturing can generate, Quantum endeavours to only use wood materials sourced from well-maintained, sustainable forestry. Additionally, all wood waste created during the production of your kitchen is recycled as a source of energy, heating Quantum's factory and offices, consequently reducing our carbon footprint.
